Hi Gloria I am a primary teacher from Nottingham, England who would also like to set up a project with a Spanish school. My pupils are learning Spanish but we are at a very basic level (me included!!). I love the idea that you are in a rural school in contrast to our very inner city setting. I think there would be lots of things we could compare and discover about each other. If you are interested in working with us or finding out more, then please feel free to contact me for more information. Looking forward to your reply.
